PROFESSIONAL SUMMARY

Results-driven **MERN** Stack Developer with hands-on experience in building scalable, high-performance web applications using modern JavaScript technologies. Strong expertise in frontend frameworks, backend APIs, databases, and cloud-based BaaS platforms. Currently working as a **MERN** Stack Developer at **Nestologies** since August 2025, contributing to production-level applications with a focus on clean architecture, performance optimization, and scalability.

PROFESSIONAL EXPERIENCE

Nestologies | Aug, 2025–Present

MERN Stack Developer

- Developed and maintained scalable MERN stack applications using React, Next.js, Node.js, Express.js, and MongoDB.
- Designed and implemented secure, optimized REST and GraphQL APIs for frontend and third-party integrations.
- Implemented state management using Redux Toolkit for complex application workflows.
- Integrated Firebase, Supabase, and Appwrite for authentication, storage, and real-time features.
- Improved application performance using Redis caching and background job processing with BullMQ.
- Worked on event-driven architecture using Kafka for reliable inter-service communication.
- Designed and managed relational and non-relational databases including PostgreSQL, MySQL, and MongoDB.
- Containerized applications using Docker for consistent development and deployment environments.
- Collaborated with cross-functional teams using GitHub for version control, code reviews, and CI-friendly workflows.
